Mike Hickey	Melissa Abbott (FDA Advisor)	(NOAA Advisor)
Bob Schuster	Raymond Burditt	
Tom Dameron		
Michael Bott		
Keith Skiles		
Eric Hickey		

Charges

Charge 1: Proposal 17-116: Sanitary Control of Molluscan Shellfish Harvested From Federal Waters

The committee is requested to review Proposal 17-116 as adopted and recommend modifications as appropriate. Modifications could include additions or deletions to the existing language for the purposes of addressing public health concerns in shellfish harvesting areas in federal waters

Findings/Conclusions:

The Committee was provided a report of the Federal Waters Subcommittee activity associated with the committee charge from Proposal 17-116 (see attached Subcommittee Report). The Committee supports the work of the Subcommittee and will continue to provide guidance and oversight in the implementation of NSSP controls to incorporate shellfish from Federal Waters into the NSSP. Additionally, the Committee will provide consultation to FDA and NOAA in accomplishing the tasks identified by the Federal Waters Subcommittee.

Recommendations:

1. The committee recommends the adoption of the following proposals:

- 19-202
- 19-203
- 19-214
- 19-223
- 19-228
- 19-229
- 19-120*

2. The Committee was provided a task list developed by the Federal Waters Subcommittee which includes

a number of regulatory actions necessary to provide a framework for incorporating shellfish from Federal Waters into the NSSP. The Committee will continue to provide oversight and assistance as these tasks are being accomplished.
