**Charges**

**Charge 1: Proposal 17-207: V.v. Control Plan**

**Findings/Conclusions:**

The Committee concluded that the matrix information needed to be corrected to reflect information provided by the FDA concerning risk levels in certain months.

**Recommendations:**

The committee recommends the adoption of Proposal 17-207 as amended:

**Section II. Model Ordinance**

**Chapter II. Risk Assessment and Risk Management Requirements for the Authority**

**@.06 *Vibrio vulnificus* Control Plan**

**E. Control Plan (1)**

- (1) The *V.v.* Control Plan shall include the following:
  - (a) Identification of triggers...
  - (b) Implementation of one ...
  - (c) A state has the option to implement a *Vibrio vulnificus* Control Plan that includes time-temperature harvesting controls when Average Monthly Maximum water temperatures are below 70°F. If the state implements this option, shellstock intended for raw consumption shall comply with the

matrix below:

Action Level	<del>Water Temperature</del> <u>Month</u>	Maximum hours from Exposure to Temperature Control
Level 1	<del>&lt;65°F</del> <u>December, January, February</u>	36 hours
Level 2	<del>65°F – 70°F (18°C – 23°C)</del> <u>March, November</u>	14 hours

(d) When pre-harvest ...

### **Charge 2: Proposal 17-209: Shellstock Time to Temperature Controls**

#### **Findings/Conclusions:**

The Committee concluded that Proposal 17-209 addressed the issues of Proposal 17-207.

#### **Recommendations:**

The Committee recommends Task Force II to take no action on Proposal 17-209 as this issue is resolved by action on Proposal 17-207.

### **Charge 3: Proposal 17-225: Clarification of Surf Clams and Ocean Quahogs Exemption from Time/Temperature Requirements**

#### **Findings/Conclusions:**

A Subcommittee was appointed to address Proposal 17-225.

#### **Recommendations:**

The Committee recommends Task Force II refer Proposal 17-225 back to committee as the Subcommittee is still collecting data needed to make a recommendation.
