

**ISSC 2019  
Committee Report**

**Committee Name :** Training  
**Chairperson:** Kohl Kanwit  
**Date of Meeting:** 10/6/19

**Committee Members:**

X Kohl Kanwit (Chairperson)	X Mike Hickey Debbie Rouse	Kris Phelps (FDA Advisor)
Kirk Wiles	X Bill Kramer (EPA Delegate)	X Raymond Burditt (FDA Advisor)
Keith Skiles	Brent Higgs (FDA Delegate)	X Luis Solorzano (FDA Advisor)
X Johnathan Gerhardt	Lizzie Farrell (FDA Advisor)	X Jon Bell (NOAA Delegate)
X Kim Stryker		
X Ruth Posadas		
X Kim Norgren		

---

**Charge 1:**

See interim report

**Findings/Conclusions:**

The committee discussed existing courses identified in the proposed curriculum and new courses currently being developed by FDA.

The committee also discussed possible training topics for the 2020 regional meetings. FDA commented that compliance with time/temperature documentation is still problematic. The committee responded that this topic was already addressed in a training module in 2019. FDA also noted that in-field plant sanitation compliance was problematic, but the committee didn't feel like this was an issue that could be addressed through a training module. Addressing common problems with HACCP plans was mentioned as a possible training topic, as was development of recall plans and implementation.

**Recommendations:**

The Committee made a motion to request that Task Force III charge the training committee to continue development of a training curriculum including prioritization of new course development.

The Committee made a motion to develop a training topic survey to distribute to the ISSC membership by December 1, 2019 with a response date by December 15, 2019.
