RE: 2012 Workgroup Charges

During the 2011 Biennial meeting the ISSC adopted Proposal 09-212. This proposal will require states to provide training to all certified dealers and licensed harvesters. The ISSC is exploring the possibility of developing training materials to assist states in complying with these requirements. You are requested to participate in a conference call to discuss this concept.

If you are unable to participate in the activities of this Workgroup, please contact us at 803-788-7559 or issc@issc.org. Thank you for your interest and support of the ISSC and we look forward to working with you. Your Workgroup Chairperson will be contacting you soon.
