401 EAST STATE STREET  
TRENTON, NJ 08625-0402

CHRIS CHRISTIE  
*Governor*

BOB MARTIN  
*Commissioner*

KIM GUADAGNO  
*Lt. Governor*

### Administrative Order No. 2012-17

Pursuant to statutory authority granted to the Department of Environmental Protection at N.J.S.A 58:24-2, and to ensure that the public health is not at risk from the consumption of shellfish that may have been subjected to pollution or other condition that may render the shellfish dangerous to health, by Administrative Order 2012-10a signed by me on October 26, 2012, effective immediately after sunrise on October 29, 2012, the Department closed all waters of the State to shellfish harvest because of potentially degraded water quality resulting from Hurricane Sandy.

The Department has determined, through monitoring of water quality and analysis of shellfish tissue, that the coastal waters of Navesink and Shrewsbury Rivers are now safe for the harvesting of shellfish in accordance with the Shellfish Growing Water Classification rules at N.J.A.C. 7:12. Accordingly, the Department hereby reopens the following waters and returns them to their prior classification:

All of the New Jersey State waters within the Navesink and Shrewsbury Rivers from point A located at 40°23'46.14" N 73°58'51.42" W to point B located at 40°23'45.32" N 73°58'38.89" W (see attached map).

Portions of Administrative Order Number 2012-10a signed by me on October 26, 2012, and all previous Administrative Orders or portions thereof that are inconsistent with this Order, are hereby superseded and repealed.

This Order shall take effect at sunrise (7:06 AM.) on December 8, 2012.

Dated: 12/7/12

  
Bob Martin, Commissioner
