

The Canadian Food Inspection Agency (CFIA) has notified the FDA that Taylor Shellfish Canada Inc. dba Fanny Bay Oysters (BC 0773 SP,WS) has issued a voluntary recall of live oysters due to *Vibrio parahaemolyticus* test results. The affected oysters are identified with harvest area 14-8, Landfile #278757, and original harvest date of 10/17/2023 with final harvest/process dates of 10/25/2023 and 10/26/2023 on product tags/labeling. The implicated products include Xsmall Sunseeker Oysters with Lot Number 38336 and wet storage lot numbers (W/S Lot #) w72297 and w72240. At this time, it is believed that product was shipped to two (2) U.S. distributors – one (1) in Washington and one (1) in California.
