Hi Ken. We had to revise the Fiscal Impact form that goes with the package and that is now back in our budget shop. We are still making slow but steady progress.

Pat,

Could you please provide me with an update regarding your efforts to modify regulations involving PHP validation and verification.

Thanks,  
Ken Moore

Pat,

10/9/2012

That time is fine. Do you want me to call you or do you want to call me?

Thanks,  
Ken

Pat,

When would you have an opportunity for you and I to discuss your regulation requiring Gulf Oysters to be Post-Harvest Processed? There have been recent validation and verification changes to the NSSP. These changes make it difficult and expensive for processors to meet NSSP requirements and the California regulation. I have some thoughts about fixing this problem that wouldn't compromise the California regulation. Please let me know when you have some time.

Thanks,  
Ken Moore
