* Cases involving self-harvest are not counted as commercial cases in State illness totals.

+ Molluscan product involved was cooked and/or shucked. No raw product was linked.

☆ Not indicated on COVIS form, or equivalent notification, provided to CDC. If anything is noted on form, notation is included on table.

▪ State of consumption was not indicated on COVIS; however, patient did not travel outside of home state within seven (7) days of illness and consumption date was within this window.

Race: (C)- Caucasian; (A)- African American; (H)- Hispanic

Sex: (M)-Male; (F)-Female

Status: (A)-Alive; (D)-Dead

Number of cases reported to date: 26

Number of Deaths: 12

Number of Males/Deaths: 10/12

Number of Females/Deaths: 2/12

Number of Oyster/Clam Related Consumption Illnesses: 25

States Involved (consumption): LA, TX, PA, FL, DE, NY, AL, OK

[NOTE: Only cases related to commercially harvested oysters/clams are included in these totals]

Monthly Frequency (Consumption - All Cases):

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
			5	2*	1	2	5*	2	5	1	2	26 cases (*includes one (1) probable contact/exposure and one non-oyster/clam related illness)
