(NOAA Delegate)

Bill Kramer

(EPA Delegate)

Paul DiStefano

(FDA Delegate)

---

### Charges

#### Charge 1:

Findings & Conclusions:

Approved motion:

That we accept all current validated PHP methods for Vibrios as a reconditioning of the product.

Recommendations:

Validated reconditioned processes include subjecting product recalled for Vp or Vv to validated PHPs or placing product into approved, conditionally approved, conditionally restricted or restricted growing areas for an appropriate period of time, not less than 14 days, with appropriate controls and documentation to be determined by the SSCA.
