

ISSC has received the following information from Washington

Washington is conducting a recall for shellstock due to Norovirus-like illnesses associated with raw oyster consumption.

- Growing Area: A small portion of Hammersley Inlet
- Recall dates: 3/22/2026-4/9/2026
- Species: All species
- Harvesters: WA-1724-SS- Gomez Shellfish, LLC.

Oysters were shipped in WA, and to OR and CA.

The grower and all WA dealers have contacted their buyers. Washington is still gathering additional information and will continue to send updates.

Please reach out with any questions, thank you.
